Experience

schoolhouse.world • Product Designer

May to Aug 2022 in Mountain View, CA

Led the design of two teaching products from idea to launch for an ed-tech startup reaching 38K+ users across 100+ countries. Collaborated cross-functionally to design an assessment tool for tutors to create and grade standardized tests, which facilitated 10K+ SAT practice test submissions in Oct 2022. Launched a student progress monitoring tool for teachers at an online school with 200+ students.

ThinkData Works • Product Designer

Sep to Dec 2021 in Toronto, ON

Led the end-to-end redesign of two data governance features that made it easier for users to manage members and import data sources.

Triyosoft • UI/UX Designer

Jan to Apr 2021 in Toronto, ON

Initiated an overhaul of the Triyosoft design system to support design consistency and streamline development handoff procedure. Used hierarchical task analysis to improve the efficiency of a file collaboration feature for project managers.

Oanda • UI/UX Designer

May to Aug 2020 in Toronto, ON

Redesigned the news feed on the mobile trading platform to increase trading confidence by 20%. Conducted user research and testing on the web trading platform to improve information architecture.

CIBC Digital • AEM Web Designer

Jan to Apr 2019 in Toronto, ON

Wireframed, prototyped, and built public-facing webpages using Adobe Experience Manager reaching 11M+ banking clients. Illustrated icons for CIBC's 2021 site rebrand.
