Experience

Product Design Intern / schoolhouse.world / *May - Aug 2022*

- Led the design of 2 teaching features from idea to launch for an ed tech startup, reaching 40K+ users across 100+ countries.
- Collaborated with 2+ engineers to design and deploy an assessment tool for tutors to create and grade standardized tests, facilitating 10K+ assessments in Oct 2022.
- Designed and documented 50+ new UI components with variants in Figma to streamline handoff to developers, supporting implementation of new feature in <4 months.

UI/UX Design Intern / ThinkData Works / *Sep - Dec 2021*

- Led the end-to-end redesign of 2 data features that made it easier for users to manage members and import data sources.

UI/UX Design Intern / Triyosoft / *Jan - Apr 2021*

- Initiated a complete overhaul of the Triyosoft design system in Adobe XD to support design consistency and handoff to developers, increasing the number of reusable UI components for designers by 300%.
- Used hierarchical task analysis to improve the efficiency of a file collaboration feature for project managers.

UI/UX Design Intern / Oanda / *May - Aug 2020*

- Redesigned, prototyped and tested the news feed on a mobile trading platform, increasing user satisfaction by 10%.
- Collaborated with 5+ designers to conduct user research and testing to improve the information architecture of a desktop trading platform.

Visual Design Intern / CIBC Digital / *Jan - Apr 2019*

- Wireframed, prototyped, and built webpages for a financial services site using Adobe Experience Manager reaching 11M+ banking clients.
